Note: Center the following information in the middle of the page: title, your name, school name, course title and section, the instructor's name, and the date. APA only requires the title page to be double-spaced, so if you are using a word processor, make sure to only double-space the title page—center the title in the body of the paper, rather than "double-space" the entire paper. See the "Formatting Your Paper and References" section of the Writing Center's Resources for Writing, and a video demonstration is available on the Writing Center's Informational Videos web page: http://info.csp.edu/Academic-Resources/Writing_center/Informational_Videos.
